Testimonials

Celebrating 12 years of trading in 2020.

Nina has transformed our website & positioning on google. I found throughout the process she was very quick to respond and has created some great marketing ideas for our business. The website designer she recommend has produced an website we're very happy with, delivered on time and budget.

The ongoing SEO Nina has written has been to an excellent standard and we have now received our first website order within 3 weeks of Nina beginning her work, this hadn't been achieved in the previous 6 years!!

Tom Bailey, Sally Walker Catering (Bristol)

“Our website was always at the bottom of the pile of things to improve, quite simply because our business had grown over the years by referrals. We realised our outdated website looked poor compared to our competitors and we had not had a single new enquiry via the website since it's launch in the year 2000.

With Nina's help she rebuilt the website and constantly bullied us for photos and new page content. The website went live 3 weeks ago and even in the first wave of SEO we've already had 2 enquiries from brand new clients as we climb the rankings in Google. We are happy to recommend Nina”

Keith Chambers, AJ Specialist Welding (Coalville)

“We were paying Yell hundreds of pounds in advertising over a number of years, and when I spoke to Nina she explained to me about SEO. As Hibu / Yell own their website platform, I decided to invest in a new WordPress website and Nina worked hard with SEO over the span of a few months and resolved so many other little issues along the way. Soon, we appeared on Google page 1 for a range of keywords, including “Plasterer” and “Damp proofing” in my geographical area.

Nina is always asking me for project work as she likes to post a blog once a month, she won't stop nagging me until I get before and after photos to her and sufficient text for Google to pick up. I love the fact she is has straightforward no-nonsense approach as you know exactly where you stand!

The amount of money I am saving by not paying Yell, coupled with by business enquiries and future bookings I'm working flat out, I'm tired but a very happy customer. I can't recommend her highly enough – she's not cheap but the cost is significantly lower than Yell and the enquiries and customers I now get coming to me directly through my website speak volumes of the quality of her SEO skills.”

Nina did great job optimising existing content for our blog. She even helped us with additional recommendations to focus on. Will definitely work with her again in the future.
